

Self Aspirating Aerator/Mixer

The TURBORATOR® is an innovative approach to gas/liquid transfer.

The simplicity of design results in a rugged, durable, low maintenance system providing superior mixing and aeration with reduced energy costs.

ATAD Installation – Canada

- *Superior Mixing & Aeration*
- *High Oxygen Transfer Rates*
- *No Blowers or Compressors Required*
- *20 Years Operating Experience*
- *Ideal for Retrofits or New Installations*

Superior Mixing and Aeration One Simple Device

Applications

- ATAD
- Aeration
- Lagoons and Stabilization Ponds
- Industrial Effluents
- Livestock Waste Treatment
- SBR and BNR Systems

ATAD Installation – Canada

Features & Benefits

- Easy Installation
- Low Maintenance
- Increased Efficiency and Energy Savings
- Increased Process Performance
- Available in Sizes from 5-25 HP

Oxidation Ditch – USA

Float Mounted – Canada
